Year 10 Summer homework _ GCSE Coursework.

Title: Primary Research

Collect at least 4 photos of a 'real product' that could solve your client's problem or a product they are currently using. (Show the product in use/ joins/ symbols and logos etc)

Analyse it like you do EPR. – ACCESSFM however,

- research into: how it was made use images, properties of the materials why are they right for the product?
- Any flaws in the product why doesn't it meet your clients needs/wants?
- Scale of manufacture how many were made, why, scale of manufacture. Quality Control? why
- Measurements do they need to be specific to match anything?
- How was it constructed?
- Safety are there any BSI regulations? Research
- Plastic? Are there any symbols on the product? What does this mean? Research.

Example below:
