

Computer Science Summer Homework

Year 10

Log in to your Seneca learning account. Go to the GSCE Computer science course and locate the following sections:

1. Fundamentals of Algorithms: -

- Flowcharts,
- Pseudocode,
- Searching and Sorting Algorithms
- Problem Decomposition and Abstraction

2. Programming Basics:

- Variable,
- Inputs/Outputs,
- IF statements,
- Loops.

Complete all assigned sections under these topics. Your progress will be tracked automatically.

If you score less than 80% in any section, revisit the topic and try again
